6 VIVEK MURTHY: I think, number one, we have
7 to track down where this misinformation is coming from
8 and understand how to hold platforms accountable, new
9 technology platforms that are driving so much of the
10 misinformation spread. Now, they may not be
11 intentionally driving that, and I actually don't think
12 that they are, but by allowing this misinformation to
13 proliferate on their sites, they're subjecting people
14 in the United States and around the world to
15 extraordinary harm, and they're doing so with little
16 accountability at this moment and really with very
17 little transparency. That can't be allowed to
18 continue because it's putting everyone's health at
19 risk. I do think that part of what they have to do,
20 the platforms is take aggressive action against people
21 who are intentionally spreading misinformation. We
22 call that disinformation; right? And misinformation
23 that's willfully spread and there are, you know, a
24 limited number of actors who are having an outsize
25 impact, you know, on people's health in an adverse
